

SICTIC Angel Training @ Il Litorale

Are you considering investing in a technology startup but don't know how to go about it, what to look out for, and about other investors' experiences?

Il Litorale is pleased to host the Swiss ICT Investor Club (SICTIC) for an exclusive event on "angel investing". During the 1-hour workshop, participants will learn about the essential elements of successful investments in technology startups. The session will be conducted by Dr. Thomas Dübendorfer (SICTIC President) and Ralph Mogenicato (SICTIC Vice President), two prominent business angels who will share their knowledge and experience as active investors in Swiss startups to explain how to manage the related risks and opportunities.

The workshop is held at the Cinema Iride theatre, in the heart of the Quartiere Maghetti in Lugano, home to Il Litorale.
